On the road this is a rapid, torquey 3-Series Touring with the traditional super-smooth BMW straight-six engine. It cruises well on the motorway and A-roads and has enough grip & poise to make easy work of the bumpy Sussex B-roads near Brighton. The excellent 5-speed auto has Sport and Normal modes - in Sport mode gears can be selected manually via the gearlever and the shifts are smooth and positive

The car has full BMW main dealer history. It has just had an Inspection I service at Chandlers BMW Brighton and will be valeted and inspected for us before sale. We've had the original wheels refurbished and fitted new centre caps. The purchase price includes a fresh MOT and an extendable six-month parts and labour warranty
